**ADDITIONAL MEASUREMENT DETAILS:**

**Chest Measurement (To be taken standing):** Ask the individual being measured to raise his/her arms to shoulder level. Place the beginning of the tape measure in the middle of the widest point of the chest. Continue around under the arms and across the shoulder blades until the tape measure meets the starting point, keeping the tape measure straight and snug, not tight. Ask the individual being measured to drop his/her arms to the side. Record the chest measurement.

**Abdomen Measurement (To be taken standing):** Place the beginning of the tape measure in the middle of the stomach at the widest section of the abdomen. Continue around the back and side until the tape measure meets where you started, keeping the tape measure straight and snug, not tight. Record the abdomen measurement.

**Front Length (To be taken standing):** Place the beginning of the tape measure at the clavicle. For standard Tactical Fit - measure from the clavicle to the top of the navel. For Max-Tactical Fit (more coverage), measure from the clavicle to the top of the duty belt - keeping the tape measure straight and snug, not tight. Record the front length measurement.

**Back Length (To be taken standing):** Measure from the large bone at the base of the neck (center of back) to the top of the duty belt, keeping the tape measure straight and snug, not tight. Record the back length measurement.
